Memorandum

Whereas, the Directorate of Industries, A & N Administration conducted written examination for filling up the vacant post of Industries Promotion Officer on 2nd and 3rd September 2023 in CBT Mode through C-DAC Chennai in three batches in which 479 candidates appeared.

Few candidates namely Ms J. Sunita, Shri Bipradhar Mazhi, Shri K. Balan, Shri Shreya Kumari, Shri N. Pradeep Kumar, Shri D. Neeraj, Shri S. Priyakarppan, Shri R. Rajesh Shri Vijay Singh Ms Sameema Thoufique and Shri Arun submitted their grievances. The grievances submitted by these candidates was examined by the duly constituted examination committee in consultation with Lecturer, DBRAIT and the finding of the examination committee is as follows:

- The question asked in all the set of question papers were from the Syllabus published for information of the candidate.
- The logic pointed out by CDAC that what appears to be from Chemical Engineering/Chemistry are indeed connected with industrial safety, Pollution control and common industrial process.
- Concerns have been raised by only (11) eleven candidates (2.30%) out of 479 candidates (97.7%) who appeared for the exam. Therefore, the committee is of the opinion that maximum of the candidates understood the above rationale.
- Concern raised by these 11 candidates that most of the question is from Chemical Engineering is also not correct as only few question asked i.e. only 13, 18, 9 questions respectively from each of the Question Set containing 150 questions were from Chemical Engineering
- In conclusion the question paper was well within the prescribed syllabus and adequately covered all the topics conforming to the above rationale appears to be justified.

Accordingly, the representation submitted by the above disposed-off. This has the approval of competent authority.

Deputy Director

Copy to Executive Officer, SOVTECH with the request to upload the above memorandum in eRecruitment Portal and State Portal of A & N Administration for information of candidates.
